SKILLS

- SQL
- C#
- SSIS, SSRS

- Software Documentation
- Source Control - Git, SVN
- New Employee Mentoring

- Code Reviews
- Build Releases
- Agile

EXPERIENCE

Programmer Analyst I, *Agust 2019 - Present*
State Employee's Credit Union - *Raleigh, NC*

- Worked with a black box application API and SQL to create workflows and site edits.
- Established visio documents of developed workflows for end user reference.
- Wrote SQL Agent Jobs for various automation projects.
- Led sprint releases by delegating priorities, creating SDLC documentation, and assisting with releases in multiple environments.
- Assisted teammates by volunteering for projects with little exposure using C# and SQL.
- Created documentation for new hires to streamline hiring process.
- Assisted with multiproduct inbox support.

Software Engineer II, *June 2015 - August 2019*
Public Consulting Group - *Blacksburg, VA*

- Wrote SQL scripts for daily maintenance activities, including tables analyses involving multiple JOINS, UNIONS, and CTE's.
- Modified preexisting scalable applications for information identification, extraction, analysis, and retrieval using C# and SQL.
- Versed in complete software life cycle from preliminary needs analysis to enterprise-wide deployment and support.
- Modified existing software to correct coding errors, upgrade interfaces and improve overall performance.
- Directed software design and development while remaining focused on meeting client needs for functionality, timeline, and performance.
- Consulted regularly with internal customers on application development project status, new project proposals, and software-related technical issues.
- Worked effectively with cross-functional design teams to create software solutions that elevated client side experience and significantly improved overall functionality and performance.
- Orchestrated efficient deployments, including testing features and correcting code to produce innovative products.
- Gathered and defined customer requirements to develop well-organized project plans based on clear specifications.

EDUCATION

Bachelor of Science: *Computer Science with a minor in Mathematics, 2015*
Roanoke College - *Salem, VA*

- Elected to President for Roanoke College Student Chapter of Association for Computing Machinery in 2014.
- Elected to Vice President for Roanoke College Student Chapter of Association for Computing Machinery in 2013.

INDUSTRY HOBBIES

Discord Covid-19 Bot, *March 2020 - April 2020*
Git: `https://github.com/JohnGuidry/COVID19_BOT`

- Created a bot using Python to report Covid-19 statistics on the Discord platform using HTML scraping.

Cyrptocurrency Mining Management, *June 2017 - August 2018*
Git: `https://github.com/JohnGuidry/puddle_jumper`

- Maintained a cryptocurrency mining machine using Linux and perl scripts to identify profitable 'alt coins.'

- Created power failure scripts for boot.

- Created boot scripts to call overclocking of graphics cards and perl scripts to mine.
